Abstracts

With local consumers becoming increasingly health-conscious and looking for healthier breakfast options, the demand for low or no added sugar breakfast cereals in Germany has increased in recent years. These alternative options contain reduced levels of added sugars, while still providing essential nutrients and fibre. They are often marketed as a way to support weight loss, improve gut health and reduce the risk of chronic diseases such as diabetes or heart disease. The growing popularity of lo...

Euromonitor International's HW Staple Foods in Germany report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
