## Abstracts

In 2022, more consumers, particularly those of the younger generation, started looking for high protein staple foods as a result of the fitness craze. An increasing number of people began to visit gyms and exercise regularly in the review period. Apart from working out, people are also paying attention to their diets. Many have changed their diets and exercise routines in order to achieve a particular fitness objective, whether it be weight loss or improved overall health. Therefore, there is a...

Euromonitor International's HW Staple Foods in Taiwan report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
