## Abstracts

In 2022, sales of plant-based alternatives to meat and seafood grew at a slower pace, leading to speculation that this is no longer a top trend. Due to rapid inflation and supply chain disruptions since the pandemic, consumers looked for affordability alongside environmental concerns, leading to a slower increase for plant-based meat and seafood substitutes in retail current value terms. However, this is only part of story of the volatility of this category. In 2022, plant-based meat and seafood...

Euromonitor International's HW Staple Foods in USA report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector.
