Abstracts

Ice cream registered stronger growth in 2022 compared with 2021, outperforming other snack types. This strong growth was mainly due to increased time spent indoors, and the extreme hot weather in the summer. In 2022, the zero-COVID policy was in place in the country until the end of year. Under the policy, cities and towns across the country experienced lockdowns to different degrees. Although the lockdowns hampered retail deliveries in places such as Shanghai for some time, it increased the amo...

Euromonitor International's Ice Cream in China report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere.
