Abstracts

After the demand spike seen in retail unit volumes of hot drinks packaging in Japan in 2020, after having declined or stagnated in the earlier years of the review period, sales have since declined in both 2021 and 2022. Consumers were increasing their consumption of hot drinks at home in 2020 given the COVID-19 restrictions in place in this year, but, with more freedom as the restrictions were eased or lifted, retail sales have since slipped into decline. Among the biggest products in hot drinks...

Euromonitor International's Hot Drinks Packaging in Japan report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Coffee, Other Hot Drinks, Tea.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
