## Abstracts

In 2023, the increase in mobility after the pandemic ended is set to help decelerate the retail volume decline that imaging devices had been suffering, as consumers have returned to enjoying life outdoors. Nevertheless, the substitution trend pushed by smartphones and their ever-improving photographic and video capabilities is continuing to drive falling sales across both digital cameras and digital camcorders, and these products are now focused on a niche consumer group.

Euromonitor International's Imaging Devices in Chile report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.

**Product coverage:** Digital Camcorders, Digital Cameras.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
