Abstracts

Volume sales of digital cameras continues to fall in 2023, as competition from smartphones devastates this category. Smartphones have been a threat to this category for years, as their devices offer high-quality images and recording with increased portability and other innovative features. As such, consumers are increasingly turning to their smartphones to capture desired images rather than spending additional money on a digital camera.

Euromonitor International's Imaging Devices in Czech Republic report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth.
