Abstracts

Whilst still seeing sales declines, imaging devices is faring better in 2023 than seen in 2022. However, we should consider that imaging devices has been in a decline for a decline, due to the growing use of smartphones for taking photographs and recording video. While the picture quality of dedicated digital cameras and camcorders may be superior to that of smartphones, this gap is narrowing – particularly for more expensive smartphones. For many French consumers, the quality of smartphone phot...

Euromonitor International's Imaging Devices in France report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.
