Abstracts

Volume sales of imaging devices again fell by a fifth in 2023 and value sales also registered decline. Continuing advances in smartphones' cameras are leading to continual decline in imaging devices, to the extent that some smartphones can meet the imaging device needs of many households and therefore consumers do not perceive the need to purchase a separate imaging device. Consumer preference is for versatile, multifunctional electronics which they perceive to offer value for money, especially...

Euromonitor International's Imaging Devices in Hungary report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level.
