Abstracts

Retail volume sales of digital cameras and digital camcorders continue to decline in 2023, due to rising smartphone penetration and weak macroeconomic factors. Imaging devices are being purchased by consumers interested in documenting events, such as weddings and travels, which had been temporarily halted during the pandemic. Demand for imaging devices has therefore experienced a resurgence as these restrictions were lifted and tourism rebounded. By contrast, developments in smartphone camera te...

Euromonitor International's Imaging Devices in India report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.
