Abstracts

Sales of imaging devices in Israel have continued to fall sharply in 2023, with the digital cameras and digital camcorders categories both poised to register double-digit declines in volume terms. Demand for these product types has been shrinking for several years due to cannibalisation by smartphones with increasingly sophisticated camera and video recording functions. In addition to being much more portable, smartphones are favoured for their superior connectivity, which is a key advantage giv...

Euromonitor International's Imaging Devices in Israel report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.
