Abstracts

The popularity of imaging devices continues to decline as part of a long-term trend in Singapore, as many local consumers prefer to use their smartphones to take photographs and videos. The quality of smartphone cameras is constantly improving due to technological advancements, and newer models tend to feature three or more camera lenses, which means the quality of the images captured is consistently increasing. In addition, using a smartphone camera is considered more convenient as it is always...

Euromonitor International's Imaging Devices in Singapore report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level.
