Abstracts

Retail sales of imaging devices continued to decline in volume terms in 2023, due to cannibalisation from smartphone cameras. While the quality of a smartphone camera is typically inferior to a dedicated digital camera or camcorder, for most local consumers, it is adequate for their photography needs, as well as being less bulky to carry around. Indeed, the quality of smartphone cameras steadily improved over the course of the review period, with some smartphone manufacturers, such as Apple and...
