Date: August 2018

Pages: 14

Price: US\$ 990.00 (Single User License)

ID: I3298818827EN

## Abstracts

The use of smartphones continued to compete with individual imaging devices. Digital cameras were still a step ahead of the most-sophisticated smartphones in terms of image quality but, for most consumers, a smartphone is good enough for casual pictures and videos, thus reducing the need to carry two separate devices. Demand for camcorders was negatively impacted by video-enabled smart cameras with increasing storage capacity, available through removable media and cloud storage.

Euromonitor International's Imaging Devices in Venezuela report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.

**Product coverage:** Camcorders, Cameras.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.

### Why buy this report?

Get a detailed picture of the Imaging Devices market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
