## Abstracts

Coronavirus (COVID-19) has had - and is having - a profound impact on the eyewear industry. Despite the essential and medical nature of many eyewear references, the industry is going through unprecedented disruption across manufacturing, distribution and consumption as a result of the pandemic. COVID-19 has exposed industry inefficiencies and is acting as a catalyst for the rapid deployment of e-commerce capabilities while enhancing fully digital shopping journeys.

Euromonitor International's The Impact of Coronavirus on Eyewear global briefing offers detailed strategic analysis of the global Eyewear market by pinpointing growth sectors, emerging trends, economic/lifestyle influences, highlights categories and geographies as well as pressing industry issues that are driving growth. The report identifies leading companies and brands within the competitive landscape, which feeds into shaping marketing and distribution strategies. From the latest cosmetics and coloured contact lenses to prescription glasses and frames, Euromonitor International offers an incisive snapshot of the Eyewear industry. Forecasts illustrate how the market is predicted to develop, regulatory shifts as well as opportunities to be seized for further growth.
