## Abstracts

For a pet care industry that has grown for decades, Coronavirus (COVID-19) poses an unprecedented challenge. The pandemic threatens supply chains, impacting the workforce and availability of key inputs. The recessionary fallout will test pet humanisation trends, particularly in severe downturn scenarios. At retail, COVID-19 is accelerating an online shift as social distancing changes habits. Long-term shifts in pet ownership and corporate strategy are also likely consequences of the pandemic.

Euromonitor International's The Impact of Coronavirus on Pet Care global briefing offers an insight into the development of the market, highlights buzz topics, emerging geographies, categories and trends as well as pressing industry issues and white spaces. It identifies the leading and emerging companies and brands, offers strategic analysis of key factors influencing the market, including background information on pet population, pet ownership by household and prepared gap ratio. Forecasts illustrate how the market is set to change and criteria for success.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
