Abstracts

There is a declining interest in in-car navigation in the Philippines as newer cars are now generally already equipped with built-in navigation systems, resulting in less demand for in-car navigation. Furthermore, greater smartphone penetration and improving network and data coverage means that more people are using GPS applications such as Waze and Google Maps to guide them in their navigation. In-car navigation products are also expensive, while navigation apps are free and can be installed on...

Euromonitor International's In-Car Entertainment in Philippines report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level.
