In incontinence, it is the medical conditions of consumers that dictate the demand instead of marketing activities. Unable to push sales, manufacturers have to adapt and offer the widest variety of products possible, for consumers to possibly choose their products. General preference over the review period was to buy moderate/heavy incontinence instead of light incontinence.

Euromonitor International's Incontinence in Croatia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2011-2015, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, distribution or pricing issues. Forecasts to 2020 illustrate how the market is set to change.

Product coverage: Light Incontinence, Moderate/Heavy Incontinence.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
