Abstracts

Incontinence experienced volume decline in 2013 and in 2014, but the trend was finally reversed in 2015 when incontinence posted 1% volume growth. This was made possible by the combination of two factors – the continuation of the long-lasting trend of the diminishing stigma regarding the use of these products and improved distribution in 2015.

Euromonitor International's Incontinence in Serbia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2011-2015, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, distribution or pricing issues. Forecasts to 2020 illustrate how the market is set to change.
