Abstracts

Information and communications turnover in Germany continued to grow at a healthy pace in 2019. Continuing technological development in the country spurred growth in the computer and related services category, which is the major component of overall turnover. The German IT industry was driven by the increased application of new technologies under the Industry 4.0 programme, which is dedicated to automation of the manufacturing sector. Moreover, growing e-banking usage in the country, surging e-c...

Euromonitor International's Industrial reports provide a 360 degree view of an industry. The Industrial market report offers a comprehensive guide to the size and shape of the Information and Communications market at a national level.
