Abstracts

This report looks at key innovations introduced throughout 2018 that exemplify the driving trends for the region. The introduction of new flavours and combinations has helped engage consumers and keep them seeking new products and brands. Demand for healthier meals has also shaped product development. Innovative new launches aiming to meet consumer demand for convenience and lighter food have been observed in Asia Pacific, and are expected to open new opportunities.

Euromonitor International's Innovation in Meals: Focus on Asia Pacific global briefing offers an insight into to the size and shape of the Packaged Food market, highlights buzz topics, emerging geographies, categories and trends and identifies the leading companies and brands. It also offers strategic analysis on driving packaged food industry trends like health and wellness, premiumisation, convenience and value-for-money and how those trends influence factors like new product developments, packaging innovations, retail distribution and retail pricing both historically and into the future.

Product coverage: Cooking Ingredients and Meals, Dairy Products and Alternatives, Snacks, Staple Foods.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
