Abstracts

Intermediaries recorded offline value growth of 6% in 2017 to reach MAD1.3 billion. This growth was mainly driven by the rising number of tourists in the country in 2017. Many tourists tend to rely on intermediaries because of their services, and also because they sometimes offer tourist guides who take tourists in groups all over the country and thus help them avoid being scammed or getting lost, especially as the majority of tourists do not speak the local language.

Euromonitor International's Intermediaries in Morocco report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2012-2016, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2021 illustrate how the market is set to change.
