Abstracts

Internet retailing is a comparatively new concept in Algeria, which started to pick up in the review period. Internet retailers started to operate in the market not long ago; however, they are expected to become increasingly popular during the forecast period. Indeed, internet retailing is growing from a low base, and therefore many new and appealing internet retailers are expected to appear over the coming years. Thus, since internet retailing is in its infancy in Algeria, it is expected that t...

Euromonitor International's Internet Retailing in Algeria report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.
