Abstracts

Internet retailing continues to see dynamic double-digit current value growth in Azerbaijan in 2018 as a result of the country's relatively stable currency and improved macroeconomic stability, which has led to a rise in disposable income. Busier lifestyles have also supported the growth of internet retailing, with consumers switching to online purchases in order to save time on shopping. Access to and rising awareness about new international websites as well as an increasing number of local sit...

Euromonitor International's Internet Retailing in Azerbaijan report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.
