Abstracts

Internet retailing in Belarus continued to register double-digit growth in 2018. Moreover, this channel's share of retailing as a whole is also recording consistent growth. The number of internet stores has increased dramatically as busy lifestyles are having a positive effect on internet retailing. It has become convenient for consumers to purchase goods from home, work or while on the go. Leading internet retailers are improving their service, widening their product assortment and developing t...

Euromonitor International's Internet Retailing in Belarus report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.
