Abstracts

As more Dominican consumers continue to embrace technology and smartphones, their love of devices has had a favourable impact on the growth of internet retailing in the country. In terms of merchandise goods, most purchases are made via websites abroad, especially those based in the US which offer a wider variety of products. One major fiscal advantage for consumers shopping online is that these transactions are not subject to the taxes applied to physical purchases at brick-and-mortar outlets i...

Euromonitor International's Internet Retailing in Dominican Republic report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.
