## Abstracts

Internet retailing remained the fastest-growing category in Uruguay in 2018. Internet retailing is relatively new to many Uruguayan consumers, especially to the adult population, which have been more reluctant to offer their credit card information in order to buy online. Nevertheless, internet retailing attracted significantly more consumers over the review period, as not only younger consumers, but also adult consumers were increasingly disposed to buy online. Additionally, whereas previously...

Euromonitor International's Internet Retailing in Uruguay report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.
