Consumer appliances and electronics remained the largest category within internet retailing. After the government forced stores to give discounts of 30% on all purchases in November 2013, many stores went bankrupt. After a period of shock, online sales of these products increased since it would be more difficult for the government to physically enforce such a mandate. Consumers were willing to risk losing money due to a fraudulent transaction or having their financial information stolen to obtain...

Euromonitor International's Internet Retailing in Venezuela report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.
