Abstracts

The juice category has grown significantly in Dominican Republic in 2022 and 2023 in retail volume terms. The category has seen even stronger growth in current value terms due to inflation-driven price rises. Juice drinks (up to 24% juice) has been the key driver of this dynamic growth with these products being more affordable than some other options, which has proven particularly appealing to consumers as the cost of living has risen and people have been forced to look for savings. The preferen...

Euromonitor International's Juice in Dominican Republic report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2018-2022), allowing you to identify the sectors driving growth.
