## Abstracts

The category failed to register retail value sales growth as it moves towards saturation in 2009. Retail value growth is further impeded by the dominant position of private label, encouraged by the spread of supermarkets throughout the country and the generic image associated with kitchen towels. In addition, the increasing proliferation of tissue and hygiene products on offer in Ireland means that some consumers are switching towards alternatives such as wipes.

Euromonitor International's Kitchen Towels in Ireland report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2005-2009, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market ??“ be they new product developments, distribution or pricing issues. Forecasts to 2014 illustrate how the market is set to change.
