Abstracts

All categories of large cooking appliances witnessed retail volume increases in 2023, although there were divergences in terms of the pace of growth. In retail volume terms, built-in models continued to dominate large cooking appliances in the Philippines. Interior kitchen design remained an important component in consumers' decision-making when purchasing large cooking appliances at the end of the review period. Following a slump in retail volume sales in 2020, due to COVID-19-related lockdowns...

Euromonitor International's Large Cooking Appliances in Philippines report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, format trends or distribution issues. Forecasts to 2028 illustrate how the market is set to change.
