## Abstracts

The tobacco industry has often been linked with a move into legal cannabis (largely without much substance in reality). However, in the context of a declining market for its core product and increasing acceptability of cannabis as a mainstream consumer product could such a move provide the industry with a continued stream of revenue into the medium and longer term?

Euromonitor International's Legal Cannabis and the Tobacco Industry: Seeing the Buds for the Weeds global briefing offers an insight into to the size and shape of the Tobacco market, highlighting major industry trends and categories as well as the factors affecting operating environment. It identifies the leading companies and brands, offers impartial, strategic analysis of key factors influencing the market - be they new product developments, legislative restrictions or pricing influences. Forecasts illustrate how the market is set to change and where it is headed.

**Product coverage:** Cigarettes, Cigars, Cigarillos and Smoking Tobacco, Smokeless Tobacco and Vapour Products.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
