Abstracts

South Africa is struggling with the impact of high inflation and decreased disposable incomes, resulting in brands needing to be competitive to obtain their share of financially-restricted consumers' budgets. Post-pandemic, eating out is considered a treat and whilst many cannot afford to eat out, limited-service restaurants remain popular as they offer greater value for money than full-service options. Thus, despite the decrease in disposable incomes, limited-service restaurants continued to ac...

Euromonitor International's Limited-Service Restaurants in South Africa report offers a comprehensive guide to the size and shape of the market at a national level. It provides foodservice sales, the number of outlets and the number of transactions by sector, allowing you to identify the foodservice sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they eating habits, lifestyle changes, tourism spending or legislative issues.
