Abstracts

Hotels in Taiwan continued to bounce back in 2023, although the number of room nights remained below pre-pandemic levels. The sector suffered during the pandemic, due to mobility restrictions, which resulted in some hotels closing, or becoming quarantine hotels, for an extended period. Retail value, however, was closer than that recorded in 2019, due to the pressure of inflation, which pushed up average room rates.

Euromonitor International's Lodging (Destination) in Taiwan report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2018-2022, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: Hotels, Lodging (Destination) Offline, Lodging (Destination) Online, Other Lodging, Short-Term Rentals.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
