Abstracts

Manila is a key economic centre in the Philippines, with bustling activities in commerce, finance and outsourced services. To sustain its strong economic standing, Manila however has to solve many infrastructure challenges caused by its rapid population surge over the past couple of decades. Over 2012-2017, population increase is expected to slow down. The city will continue to attract job-seeking immigrants but the strongest population growth will be concentrated in the surrounding regions.

Euromonitor's City Review report

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Cities market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.
