Abstracts

Euromonitor International has identified four emerging markets that can bring back vigour to the consumer appliances industry in light of the economic slowdown that the BRICs are facing. These are Mexico, Indonesia, Thailand and Turkey, dubbed the MITTs. This, the second part of two reports, identifies opportunities in Thailand and Turkey, and recommends strategies for the industry in the MITTs as a group.

Euromonitor International's Meet the Mitts: Growth Opportunities in Consumer Appliances Outside the Brics, Part II: Thailand, Turkey and the Mitts as a Group global briefing offers a comprehensive guide to the retail sales data, allowing you to identify the sectors driving growth. The report also identifies the leading companies/brands and offers strategic analysis of key factors influencing the competitive landscape - be it new product developments, technological innovations, economic/lifestyle influences, distribution or pricing issues. Additionally, trade statistics and producer's shares will answer questions on where appliances are produced and where they are being exported to, how quickly these units are moving, which companies are producing how much, and whether all categories are behaving in the same way. Collectively, this gives a complete view in both marketing and production planning strategies. Forecasts illustrate how the market is set to change.

Product coverage: Major Appliances, Small Appliances.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
