## Abstracts

Menstrual care in Indonesia in 2023 saw significant rises in both volume and current value terms, with growth driven by the country's expanding middle class. This is leading to higher disposable incomes, newfound financial flexibility and greater access to essential services and commodities including healthcare, education and a broader range of consumer goods. One notable result has been local consumers' heightened awareness and understanding of menstrual hygiene, which directly translated into...

Euromonitor International's Menstrual Care in Indonesia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth.
