## Abstracts

In the United Arab Emirates, the category of menswear is notably larger in size than womenswear, both in terms of retail volume and value sales: this is contrary to the global trend where sales of womenswear tend to be much greater. This is due to the significant demographic imbalance, with there is a higher number of male expatriates working in the United Arab Emirates compared to females. It is important to note that approximately just 10% of the local population consists of Emiratis, while th...
