Abstracts

The growth in metal packaging volume sales in Western Europe continues, despite the unusual spike a few pack types faced during the pandemic, such as metal beverage cans in beer and carbonates. The outlook is also positive, with convenience, affordability, efficiency and sustainability being a few of the factors leading metal pack volume sales in Western Europe to remain positive throughout the forecast period.

Euromonitor International's Metal Packaging in Western Europe global briefing offers an insight into the size and shape of the packaging market, highlights the effect of emerging geographies, categories and consumer trends on the packaging landscape. It identifies the leading pack types, offers strategic analysis of key factors influencing the packaging market - be they packaging innovations, consumption growth, category switching, economic/lifestyle influences, legislation or environmental issues. Forecasts illustrate how the market is set to change and criteria for success.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
