## Abstracts

The challenging economic conditions in Nigeria in 2023 led to a strong decline in retail volume terms for menswear during the year. In particular, high inflation limited consumer purchasing power. An increase in unemployment and weak spending power limited the ability of consumers to purchase brand new apparel, with many resorting either to second-hand menswear or cheap imports from China while many people simply delayed replacing their old clothes.

Euromonitor International's Menswear in Nigeria report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023 and analysis by distribution format allowing you to identify the sectors driving growth. It identifies the leading companies, leading brands, and offers strategic analysis of key factors influencing the market. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: Men's Nightwear, Men's Outerwear, Men's Swimwear, Men's Underwear.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Menswear market;

Pinpoint growth sectors and identify factors driving change;
