Abstracts

Sales in microwaves continue on a declining volume trend, as such appliances are not seen as necessities and carry a negative image of being an unhealthy method of cooking. Overall, while the convenience microwaves offer is undeniable, most Turkish consumers continue to hold a negative perception of the potential hazards of microwave cooking. In fact, there is a long-established perception in the country that cooking with microwaves has a negative impact on the nutritional content of food.

Euromonitor International's Microwaves in Turkey report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, format trends or distribution issues. Forecasts to 2028 illustrate how the market is set to change.
