## Abstracts

The mixed retailer category is comparatively underdeveloped in Bolivia. International department store brands like Fabalella or Ripley, which are popular in neighbouring countries, have yet to enter Bolivia. Similarly, mass merchandisers like Walmart or warehouse clubs like Price Smart that are present in other countries in the region have yet to enter Bolivia. This is largely due to the very high levels of informal trade.

Euromonitor International's Mixed Retailers in Bolivia report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

**Product coverage:** Department Stores, Mass Merchandisers, Variety Stores, Warehouse Clubs.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
