Abstracts

Mixed retailers registered a decline in value sales in 2020, mainly due to outlet closures during the 2020 lockdowns. In 2021, there was a modest recovery, though with consumers feeling their finances squeezed, due to rising inflation and fallout from the pandemic, the non-essentialness of much of the product offerings, dampened volume sales somewhat.

Euromonitor International's Mixed Retailers in Serbia report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Product coverage: Department Stores, Mass Merchandisers, Variety Stores, Warehouse Clubs.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Mixed Retailers market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.
