Abstracts

In 2016, consumer expenditure was dampened by a pessimistic economic outlook, as oil prices remained low through most of the year. Less-dynamic consumer expenditure impacted growth of department stores and variety stores, as current value growth in 2016 was much lower than the 10% rise posted in 2015.

The report examines all retail channels to provide sector insight. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.
