Abstracts

Mobile e-commerce will continue to see very strong growth in 2021 and continues to dramatically outpace overall e-commerce growth. E-commerce via mobile devices creates permanent availability of online shops and leads to a high share of additional impulse purchases. In addition, it is benefitting from the fact that smartphones have become the main devices for online use, whilst the usage of desktop computers continues to decrease. As such, many retailers continue to interest in the strong functi...
