Abstracts

2020 saw mobile e-commerce register strong sales growth as the convenience that the channel offers stood it in very good stead as the COVID-19 pandemic brought about significant changes to consumer behaviour over the course of the year. Although growth rates were slower in 2020 than what was recorded in early years of the review period, this should be seen as the result of greater maturity in the category, rather than any negative background trends. In particular, demand for mobile e-commerce in...

Euromonitor International's Mobile E-Commerce in France report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
