Abstracts

Mobile e-commerce saw current value sales soar in 2020, as the number of first-time shoppers rose against the backdrop of the COVID-19 pandemic. With many consumers seeking convenient shopping from home, as they sought to minimise contact with the virus and thus avoid contagion, mobile e-commerce became a welcome solution for many. Categories including apparel and footwear, consumer health and beauty and personal care thus saw strong current value sales growth, especially during the festive shop...

Euromonitor International's Mobile E-Commerce in Pakistan report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
