Abstracts

Mobile e-commerce continues to be supported by the higher penetration rates of smartphones, especially amongst the younger population, alongside consumers' growing familiarity with and trust in mobile payment apps. Furthermore, this strong trend has been further enhanced by the event of COVID-19 in 2020, with an increasing rate of consumers shopping online. This makes mobile e-commerce the overall winner in retailing in Turkey in 2020.

Euromonitor International's Mobile E-Commerce in Turkey report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
