## Abstracts

Mobile internet retailing continued to register strong value growth in 2018, fuelled by consumer demand for online purchases. Additional payment methods are becoming available as retailers seek to engage with consumers in innovative and creative ways. For example, more mobile internet retailing options are now available via applications which can be downloaded to smartphones or other personal devices. One of the most popular is WhatsApp, with some retailers even offering discounts for those plac...

Euromonitor International's Mobile Internet Retailing in Dominican Republic report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
