## Abstracts

The strong growth in 3G and 4G connections in Pakistan, coupled with a population dominated by a young consumer base, are the biggest attractions for internet retailers, which remain highly optimistic about the outlook for this channel in the country. Moreover, smartphones are now widespread in the country, because more local players have entered the market with affordable prices to cater to the rise in demand; thus, enabling more people to own a smartphone. Equipped with smartphones, the growin...

Euromonitor International's Mobile Internet Retailing in Pakistan report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
